

Purpose: uncovering 

We are ~~figuring out~~ better ways of developing software by doing it and helping others to do it.

interactions

- 1) individuals and ~~social networks~~ over process & tools
- 4 ~~2~~) responding to change over following ~~a plan~~
- 3 ~~3~~) customer collaboration over contract negotiation
- 2 ~~4~~) working software over comprehensive documents

Name: The Agile Alliance

Motto: software through people / ~~reducing~~ ~~scarcity~~

Principles

Manifesto For Agile Software Development
Agile process

"Art of science writers"

- software is best developed in short cycles
- analysis + design + implementation concurrent
- executing is best way to get feedback
- communication is better in person
- keep the software as clean as possible
